Part of Paper No. _____

Art Unit: 3644

the invention.

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as

In claim 1, lines 1 and 7, the phrase "Lake model amphibious airplane" is vague and indefinite since the phrase contains what appears to be a trademarked name and is thus not clearly defined since a trademark defines the source of an object, not its parameters. The limitations of the claimed plane should be made in generic terms of art. Likewise, claim 7 contains an improper trademark name. Also, the limitations of the bolts of claim 14 is indefinite, since the designations made are subject to change.

- 3. Claims 1-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
- 4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Morris et al are cited as being of interest since they disclose aircraft wing assembly joint.
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is (703) 306-4151.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 306-4177.
